UNICOIL™

**BEND STRAIGHT HOSE INTO ANY SHAPE
 AND KEEP IT THERE**

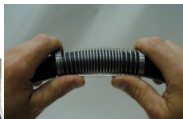

UNICOIL™ makes quick work of just about any hose-routing problem

- No tools or special equipment needed
- Prevents kinks in tight hose bends
- Stainless Steel construction

Simply...

STEP 1
 Slide the UNICOIL™ over the hose to where the bend is required

STEP 2
 Position the spine on the inside of the bend

STEP 3
 Press and bend the spine until the required bend angle is achieved

STEP 4
 Each coil bends up to a 90° angle

For best results, make a gradual bend in the spine. Use additional coils to make bends of 180° or more.
